

Commissary Onboarding

Get your commissary kitchen set up for success with our expert guidance.

What's Included

With this service, you'll get hands on support from professionals with years of restaurant experience.

Price: \$500 USD

Initial Consultation

We'll review your unique setup, align your goals, and share best practices for efficient and accurate commissary operations.

Recipe Upload

Send us your commissary recipes (50 recipes included in package), and our team will build them out and set up your Order Guide.

'Go Live' Training

We'll walk you through the full setup, including recipe building, order processing, order fulfillment, and how transactions sync with your accounting system.

Does your commissary need it's own [me] subscription? 🤔

Here's how to decide:

Physically Separate Location?

If your commissary is a standalone kitchen, a separate subscription is likely best.

Need Separate Reporting?

Want to track COGS for your commissary and restaurant separately? Then you should go for a separate subscription.

Note: You'll need separate invoices for the restaurant and commissary in order to get separate reporting.
